INDEPENDENT AUDITORS' REPORT

To

The Members of JINDAL FITTINGS LIMITED

Report on the Financial Statements

We have audited the accompanying financial statements of **JINDAL FITTINGS LIMITED** ("the Company"), which comprise the Balance Sheet as at March 31, 2017, the Statement of Profit and Loss, the Statement of Change in Equity and the Cash Flow Statement for the year then ended and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act, read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2017 and its losses and its cash flows for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the **Annexure-A** a statement on the matters specified in the paragraph 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143 (3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - (c) The Balance Sheet, the Statement of Profit and Loss, the Statement of Change in Equity and the Cash Flow Statement dealt with by this report are in agreement with the books of account;
 - (d) In our opinion, the aforesaid financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act, read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015;
 - (e) On the basis of the written representations received from the directors as on March 31, 2017 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2017 from being appointed as a director in terms of Section 164 (2) of the Act.
 - (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to **Annexure-B**.
 - (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

- i. The Company does not have any pending litigations which would impact its financial position;
- ii. Provision has been made in the financial statement, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long term contracts including derivatives contracts;

N.C. AGGARWAL & CO.
CHARTERED ACCOUNTANTS

- iii. There is no amount payable towards investor education and protection fund in accordance with the relevant provisions of the Companies Act, 1956 (1 of 1956) and rules made thereunder.
- iv. The Company has provided requisite disclosures in its financial statements as to holdings as well as dealings in Specified Bank Notes during the period from 8th November, 2016 to 30th December, 2016 and these are in accordance with the books of accounts maintained by the Company (refer note no. 46 of Notes to Financial Statements).

ANNEXURE-A TO INDEPENDENT AUDITORS' REPORT

(Annexure referred to in our report of even date to the members of **JINDAL FITTINGS LIMITED** on the accounts for the year ended March 31, 2017)

1. (a) The Company has maintained proper records showing full particulars including quantitative details and situation of fixed assets.
(b) A major portion of fixed assets has been physically verified by the management in accordance with a phased programme of verification adopted by company. In our opinion, the frequency of verification is reasonable having regard to the size of the company and the nature of its assets. To the best of our knowledge, no material discrepancies have been noticed on such verification.
(c) The Company does not have any immovable property wherein reporting requirement with respect to title deed is applicable.
2. As explained to us, the management during the year has physically verified inventories. In our opinion, the frequency of verification is reasonable. The discrepancies noticed during physical verification of inventories as compared to book records were not material and the same have been properly dealt with in the books of account.
3. According to the information and the explanations given to us, the company has not granted any loans, secured or unsecured to companies, firms, limited liability partnership or other parties covered in the register maintained under section 189 of the Companies Act 2013. Accordingly, the provisions of clause 3(iii)(a), 3(iii)(b) and 3(iii)(c) of the order are not applicable to the company and hence not commented upon.
4. The Company has not granted any loans or given any guarantee and security covered under Section 185 and 186 of the Companies Act, 2013. Accordingly, the provisions of clause 3(iv) of the order are not applicable to the company and hence not commented upon.
5. According to the information given to us, the Company has not accepted any deposits under the provisions of section 73 to 76 of the Companies Act, 2013 or any other relevant provisions of the companies Act and the Companies (Acceptance of Deposits) Rules, 2014 as amended from time to time. No order has been passed with respect to Section 73 to 76, by the Company Law Board or National Company Law Tribunal or Reserve Bank of India or any Court or any other tribunal.
6. As informed to us, Company is not required to maintain the cost records under sub-section (1) of section 148 of the Companies Act, 2013. Accordingly, the provisions of clause 3(vi) of the order are not applicable to the company.

N.C. AGGARWAL & CO.
CHARTERED ACCOUNTANTS

7. (a) According to the information and explanations given to us, the Company is generally regular in depositing with the appropriate authorities undisputed statutory dues wherever applicable i.e. provident fund, employees' state insurance, income tax, sales tax, service tax, duty of customs, duty of excise, value added tax, cess and other statutory dues with the appropriate authorities. There are no arrears as at March 31, 2017 for a period of more than six months from the date they become payable.
(b) According to the information and explanations given to us, there are no material dues of income tax, sales tax, service tax, duty of customs, duty of excise and value added tax which have not been deposited with the appropriate authorities on account of any dispute.
8. In our opinion, on the basis of books and records examined by us and according to the information and explanations given to us, the company has not defaulted in repayment of dues to banks. The company does not have any dues to financial institution, government or debenture holders.
9. The Company has not raised any money by way of initial public offer or further public offer or debt instruments. In our opinion, and according to the information and explanation given to us, the term loans have been applied for the purposes for which they were raised, other than temporary deployment pending allocation.
10. According to the information and explanations given to us and as represented by the Management and based on our examination of the books and records of the Company and in accordance with generally accepted auditing practices in India, we have been informed that no case of frauds has been committed on or by the Company or by its officers or employees during the year.
11. In our opinion and according to the information and explanations given to us, the Company has paid managerial remuneration in accordance with the requisite approvals mandated by the provisions of section 197 read with Schedule V to the Companies Act, 2013.
12. The company is not a Nidhi Company. Accordingly, the provisions of clause 3 (xii) of the Order are not applicable to the Company.
13. According to the information and explanations given to us, all transactions with the related parties are in compliance with section 177 and 188 of Act, and where applicable the details have been disclosed in the Financial Statements as required by the applicable Indian Accounting Standards.
14. According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year. Accordingly, provisions of clause 3 (xiv) of the Order are not applicable to the Company.

N.C. AGGARWAL & CO.
CHARTERED ACCOUNTANTS

15. The Company has not entered into any non-cash transactions with the directors or persons connected with him as covered under Section 192 of the Companies Act, 2013. Accordingly, provisions of clause 3 (xv) of the Order are not applicable to the Company.
16. According to the information and explanations given to us, the Company is not required to be registered under section 45-IA of the Reserve Bank of India, 1934. Accordingly, provisions of clause 3 (xvi) of the Order are not applicable to the Company.

ANNEXURE-B TO INDEPENDENT AUDITORS' REPORT

Annexure referred to in our report of even date to the members of JINDAL FITTINGS LIMITED on the accounts for the year ended March 31, 2017

Report on the Internal Financial Controls under Clause (f) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **JINDAL FITTINGS LIMITED** ("the Company") as of March 31, 2017 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company and the components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company and the components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the ICAI.

Jindal Fittings Limited

Notes to Financial Statements

1. Corporate and General Information

Jindal Fittings Limited ("JFL" or "the Company") is domiciled and incorporated in India and its shares are privately traded in India. The registered office of JFL is situated 28 Shivaji Marg, New Delhi 110015 India.

The Company is a leading global manufacturer and supplier of Ductile Iron Fittings with manufacturing facility at B-13, M.I.D.C. Industrial Area, Tembhurni, Taluka Madha, District Solapur, State Maharashtra in India. Its products have application for supply of fittings for water sector projects, drainage, oil & gas pipeline projects etc.

2. Basis of preparation

The financial statements have been prepared complying in all material respects with the accounting standards notified under Section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rule 2015. The financial statements comply with IND AS notified by Ministry of Company Affairs ("MCA"). The Company has consistently applied the accounting policies used in the preparation for all periods presented. The financial statement has been prepared considering all IND AS as notified by MCA till reporting date i.e. March 31, 2017

The standalone financial statements provide comparative information in respect to the previous year.

The significant accounting policies used in preparing the financial statements are set out in Note no. 3 of the Notes to the Financial Statements.

The preparation of the financial statements requires management to make estimates and assumptions. Actual results could vary from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision effects only that period or in the period of the revision and future periods if the revision affects both current and future years (refer Note no. 4 on critical accounting estimates, assumptions and judgements).

3 Significant Accounting Policies

3.1 Basis of Measurement

The financial statements have been prepared on accrual basis and under the historical cost convention except following which have been measured at fair value:

- financial assets and liabilities except borrowings carried at amortised cost.
- defined benefit plans – plan assets measured at fair value.
- derivative financial instruments.

The financial statements are presented in Indian Rupees (₹), which is the Company's functional and presentation currency.

3.2 Property, Plant and Equipment

Property, Plant and Equipment are carried at cost less accumulated depreciation and accumulated impairment losses, if any.

The Company has adopted optional exception under IND AS 101 to measure Property, Plant and Equipment at fair value. Consequently the fair value has been assumed to be deemed cost of Property, Plant and Equipment on the date of transition. Subsequently Property, Plant and Equipment are carried at cost less accumulated depreciation and accumulated impairment losses, if any. Cost includes expenditure that is directly attributable to the acquisition of the items.

Jindal Fittings Limited

Notes to Financial Statements

Assets are depreciated to the residual values on a straight line basis over the estimated useful lives based on technical estimates. Assets residual values and useful lives are reviewed at each financial year end considering the physical condition of the assets and benchmarking analysis or whenever there are indicators for review of residual value and useful life. Estimated useful lives of the assets are as follows:

Category of Assets	Years
-Leasehold Land	Lease period
-Buildings	3 - 60
Equipment & Machinery	
-Plant and Machinery	3 - 40
-Electrical Installations	10 - 25
Other office equipment	
-Computer equipment	3 - 10
-Office furniture and equipment	3 - 8
-Vehicles	5 - 15

The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the Statement of Profit and Loss on the date of disposal or retirement.

3.3 Intangible Assets

Identifiable intangible assets are recognised a) when the Company controls the asset, b) it is probable that future economic benefits attributed to the asset will flow to the Company and c) the cost of the asset can be reliably measured.

Computer software's are capitalised at the amounts paid to acquire the respective license for use and are amortised over the period of license, generally not exceeding six years on straight line basis. The assets' useful lives are reviewed at each financial year end.

3.4 Impairment of non-current assets

An asset is considered as impaired when at the date of Balance Sheet there are indications of impairment and the carrying amount of the asset, or where applicable the cash generating unit to which the asset belongs exceeds its recoverable amount (i.e. the higher of the net asset selling price and value in use). The carrying amount is reduced to the recoverable amount and the reduction is recognized as an impairment loss in the Statement of Profit and Loss. The impairment loss recognized in the prior accounting period is reversed if there has been a change in the estimate of recoverable amount. Post impairment, depreciation is provided on the revised carrying value of the impaired asset over its remaining useful life.

3.5 Cash and cash equivalents

Cash and cash equivalents includes cash on hand and at bank, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value and are held for the purpose of meeting short-term cash commitments.

For the purpose of the Statement of Cash Flows, cash and cash equivalents include, outstanding bank overdrafts shown within the borrowings in current liabilities in the Balance Sheet and which are considered an integral part of the Company's cash management.

Jindal Fittings Limited

Notes to Financial Statements

3.6 Inventories

Inventories are valued at the lower of cost and net realizable value except scrap, which is valued at net realizable value. Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale. The cost of inventories comprises of cost of purchase, cost of conversion and other costs incurred in bringing the inventories to their respective present location and condition. Cost is computed on the weighted average basis.

3.7 Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement. The company has only operating lease.

Operating lease

An operating lease is a lease other than a finance lease. Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned. Payments/receipts under operating lease are recorded in the Statement of Profit and Loss on a straight line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases.

3.8 Employee benefits

- a) Short term employee benefits are recognized as an expense in the Statement of Profit and Loss of the year in which the related services are rendered.
- b) Leave encashment being a short term benefit is accounted for using the projected unit credit method, on the basis of actuarial valuations carried out by third party actuaries at each Balance Sheet date. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to profit and loss in the period in which they arise.
- c) Contribution to Provident Fund, a defined contribution plan, is made in accordance with the statute, and is recognised as an expense in the year in which employees have rendered services.
- d) The cost of providing gratuity, a defined benefit plans, is determined using the Projected Unit Credit Method, on the basis of actuarial valuations carried out by third party actuaries at each Balance Sheet date. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to other comprehensive income in the period in which they arise. Other costs are accounted in statement of profit and loss.

The Company operates defined benefit plans for gratuity, which requires contributions to be made to a separately administered fund. Funds are managed by two trusts. These trusts have policies from an insurance company. These benefits are partially funded.

3.9 Foreign currency reinstatement and translation

(a) Functional and presentation currency

Financial statements have been presented in Indian Rupees (₹), which is the Company's functional and presentation currency.

Jindal Fittings Limited

Notes to Financial Statements

(b) Transactions and balances

Transactions in foreign currencies are initially recorded by the Company at rates prevailing at the date of the transaction. Subsequently monetary items are translated at closing exchange rates of balance sheet date and the resulting exchange difference recognised in profit or loss. Differences arising on settlement of monetary items are also recognised in profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the transaction. Non-monetary items carried at fair value that are denominated in foreign currencies are translated at the exchange rates prevailing at the date when the fair value was determined. Exchange component of the gain or loss arising on fair valuation of non-monetary items is recognised in line with the gain or loss of the item that gave rise to such exchange difference.

3.10 Financial instruments – initial recognition, subsequent measurement and impairment

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a. Financial Assets

Financial Assets are measured at amortised cost or fair value through Other Comprehensive Income or fair value through Profit or Loss, depending on its business model for managing those financial assets and the assets contractual cash flow characteristics.

Subsequent measurements of financial assets are dependent on initial categorisation. For impairment purposes significant financial assets are tested on an individual basis, other financial assets are assessed collectively in groups that share similar credit risk characteristics.

Trade receivables

A receivable is classified as a 'trade receivable' if it is in respect to the amount due from customers on account of goods sold or services rendered in the ordinary course of business. Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment. For some trade receivables the Company obtain security in the form of guarantee or letter of credit which can be called upon if the counterparty is in default under the terms of the agreement.

A provision for impairment is established when there is objective evidence that the Company will not be able to collect all amounts due according to the original terms of the receivables. The estimated impairment losses are recognised in a separate provision for impairment and the impairment losses are recognised in the Statement of Profit and Loss within other expenses.

Subsequent changes in assessment of impairment are recognised in provision for impairment and the change in impairment losses are recognised in the Statement of Profit and Loss within other expenses.

For foreign currency trade receivable, impairment is assessed after reinstatement at closing rates.

Individual receivables which are known to be uncollectible are written off by reducing the carrying amount of trade receivable and the amount of the loss is recognised in the Statement of Profit and Loss within other expenses.

Subsequent recoveries of amounts previously written off are credited to other Income

Jindal Fittings Limited

Notes to Financial Statements

b. Financial Liabilities

At initial recognition, all financial liabilities other than fair valued through profit and loss are recognised initially at fair value less transaction costs that are attributable to the issue of financial liability. Transaction costs of financial liability carried at fair value through profit or loss is expensed in profit or loss.

i. Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading. The Company has not designated any financial liabilities upon initial measurement recognition at fair value through profit or loss. Financial liabilities at fair value through profit or loss are at each reporting date at fair value with all the changes recognized in the Statement of Profit and Loss.

ii. Financial liabilities measured at amortised cost

After initial recognition, interest bearing loans and borrowings are subsequently measured at amortised cost using the effective interest rate method ("EIR") except for those designated in an effective hedging relationship. The carrying value of borrowings that are designated as hedged items in fair value hedges that would otherwise be carried at amortised cost are adjusted to record changes in fair values attributable to the risks that are hedged in effective hedging relationship.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fee or costs that are an integral part of the EIR. The EIR amortisation is included in finance costs in the Statement of Profit and Loss.

After initial recognition, interest-bearing borrowings are subsequently measured at amortised cost using the effective interest method. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least twelve months after the reporting period.

Trade and other payables

A payable is classified as 'trade payable' if it is in respect of the amount due on account of goods purchased or services received in the normal course of business. These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

De-recognition of financial liability

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other income or finance costs.

3.11 Equity share capital

Ordinary shares are classified as equity. Incremental costs net of taxes directly attributable to the issue of new equity shares are reduced from retained earnings, net of taxes.

Jindal Fittings Limited

Notes to Financial Statements

3.12 Compulsorily convertible preference share capital

Compulsorily convertible preference shares convertible into fixed number of equity shares are classified as other equity.

3.13 Borrowing costs

Borrowing costs specifically relating to the acquisition or construction of qualifying assets that necessarily takes a substantial period of time to get ready for its intended use are capitalized (net of income on temporarily deployment of funds) as part of the cost of such assets. Borrowing costs consist of interest and other costs that the Company incurs in connection with the borrowing of funds.

For general borrowing used for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalization is determined by applying a capitalization rate to the expenditures on that asset. The capitalization rate is the weighted average of the borrowing costs applicable to the borrowings of the Company that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset. The amount of borrowing costs capitalized during a period does not exceed the amount of borrowing cost incurred during that period.

All other borrowing costs are expensed in the period in which they occur.

3.14 Taxation

Income tax expense represents the sum of current and deferred tax. Tax is recognised in the Statement of Profit and Loss, except to the extent that it relates to items recognised directly in equity or other comprehensive income, in such cases the tax is also recognised directly in equity or in other comprehensive income. Any subsequent change in direct tax on items initially recognised in equity or other comprehensive income is also recognised in equity or other comprehensive income, such change could be for change in tax rate.

Current tax provision is computed for Income calculated after considering allowances and exemptions under the provisions of the applicable Income Tax Laws. Current tax assets and current tax liabilities are off set, and presented as net.

Deferred tax is recognised on differences between the carrying amounts of assets and liabilities in the Balance sheet and the corresponding tax bases used in the computation of taxable profit and are accounted for using the liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences, and deferred tax assets are generally recognised for all deductible temporary differences, carry forward tax losses and allowances to the extent that it is probable that future taxable profits will be available against which those deductible temporary differences, carry forward tax losses and allowances can be utilised. Deferred tax assets and liabilities are measured at the applicable tax rates. Deferred tax assets and deferred tax liabilities are off set, and presented as net.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available against which the temporary differences can be utilised.

3.15 Revenue recognition and other operating income

Sale of goods

Revenue is recognized at the fair value of consideration received or receivable and represents the net invoice value of goods supplied to third parties after deducting discounts, volume rebates and outgoing sales tax and are recognized either on delivery or on transfer of significant risk and rewards of ownership of the goods. Revenue is inclusive of excise duty.

Jindal Fittings Limited

Notes to Financial Statements

Other Operating Income

Incentives on exports and other Government incentives related to operations are recognised in books after due consideration of certainty of utilization/receipt of such incentives.

Other Income

Interest

Interest income is recognised on a time proportion basis taking into account the amount outstanding and the rate applicable.

3.16 Earnings per share

Basic earnings per share are computed using the net profit for the year attributable to the shareholders' and weighted average number of shares outstanding during the year. The weighted average numbers of shares also includes fixed number of equity shares that are issuable on conversion of compulsorily convertible preference shares, debentures or any other instrument, from the date consideration is receivable (generally the date of their issue) of such instruments.

Diluted earnings per share is computed using the net profit for the year attributable to the shareholder' and weighted average number of equity and potential equity shares outstanding during the year including share options, convertible preference shares and debentures, except where the result would be anti-dilutive. Potential equity shares that are converted during the year are included in the calculation of diluted earnings per share, from the beginning of the year or date of issuance of such potential equity shares, to the date of conversion.

3.17 Provisions and contingencies

Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are discounted using equivalent period government securities interest rate. Unwinding of the discount is recognised in the Statement of Profit and Loss as a finance cost. Provisions are reviewed at each balance sheet date and are adjusted to reflect the current best estimate.

i). Gratuity and leave encashment provision

Refer Note no 3.8 for provision relating to gratuity and leave encashment.

Contingencies

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made. Information on contingent liability is disclosed in the Notes to the Financial Statements. Contingent assets are not recognised. However, when the realisation of income is virtually certain, then the related asset is no longer a contingent asset, but it is recognised as an asset.

3.18 Current versus non-current classification

The Company presents assets and liabilities in statement of financial position based on current/non-current classification.

Jindal Fittings Limited Notes to Financial Statements

The Company has presented non-current assets and current assets before equity, non-current liabilities and current liabilities in accordance with Schedule III, Division II of Companies Act, 2013 notified by MCA.

An asset is classified as current when it is:

- a) Expected to be realised or intended to be sold or consumed in normal operating cycle,
 - b) Held primarily for the purpose of trading,
 - c) Expected to be realised within twelve months after the reporting period, or
 - d) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.
- All other assets are classified as non-current.

A liability is classified as current when:

- a) It is expected to be settled in normal operating cycle,
 - b) It is held primarily for the purpose of trading,
 - c) It is due to be settled within twelve months after the reporting period, or
 - d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.
- All other liabilities are classified as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

4. Critical accounting estimates, assumptions and judgements

In the process of applying the Company's accounting policies, management has made the following estimates, assumptions and judgements, which have significant effect on the amounts recognised in the financial statement:

(a) Property, plant and equipment

External adviser or internal technical team assess the remaining useful lives and residual value of property, plant and equipment. Management believes that the assigned useful lives and residual value are reasonable.

On transition to IND AS, the Company has adopted exception for fair valuation of property, plant and equipment, impact of fair valuation is provided in Note no 55, subsequent to fair valuation depreciation has been charged on fair valued amount less estimated salvage value. On transition to IND AS, the Company has revisited useful life of various categories of assets, impact of revision in estimate of useful life of various assets is provided in Note no 3.2. Property, plant and equipment also represent a significant proportion of the asset base of the Company. Therefore, the estimates and assumptions made to determine their carrying value and related depreciation are critical to the Company's financial position and performance.

(b) Intangibles

Internal technical or user team assess the remaining useful lives of Intangible assets. Management believes that assigned useful lives are reasonable.

Before transition to IND AS, the company has revisited the useful life of the assets and the impact of change in life on transition is considered in opening carrying values. Also all Intangibles are carried at net book value on transition.

Jindal Fittings Limited

Notes to Financial Statements

(c) Income taxes

Management judgment is required for the calculation of provision for income taxes and deferred tax assets and liabilities. The Company reviews at each balance sheet date the carrying amount of deferred tax assets. The factors used in estimates may differ from actual outcome which could lead to significant adjustment to the amounts reported in the financial statements.

(d) Contingencies

Management judgement is required for estimating the possible outflow of resources, if any, in respect of contingencies/claim/litigations against the Company as it is not possible to predict the outcome of pending matters with accuracy.

(e) Allowance for uncollected accounts receivable and advances

Trade receivables do not carry any interest and are stated at their normal value as reduced by appropriate allowances for estimated irrecoverable amounts. Individual trade receivables are written off when management deems them not to be collectible.

Impairment is made on the expected credit losses, which are the present value of the cash shortfall over the expected life of the financial assets.

(g) Insurance claims

Insurance claims are recognised when the Company have reasonable certainty of recovery. Subsequently any change in recoverability is provided for.

(h) Liquidated damages

Liquidated damages payable are estimated and recorded as per contractual terms; estimate may vary from actuals as levy by customer.

Jindal Fittings Limited

Notes to Financial Statements

33. Financial risk management

33.1 Financial risk factors

The Company's principal financial liabilities comprise borrowings, trade and other payables, and financial guarantee contracts. The main purpose of these financial liabilities is to manage finances for the Company's operations. The Company has loan and other receivables, trade and other receivables, and cash and short-term deposits that arise directly from its operations. The Company's activities expose it to a variety of financial risks:

i) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprise three types of risk: currency rate risk, interest rate risk and other price risks, and commodity risk. Financial instruments affected by market risk include loans and borrowings, deposits, and investments. Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. This is based on the financial assets and financial liabilities held as of March 31, 2017 and March 31, 2016.

ii) Credit risk

Credit risk is the risk that a counter party will not meet its obligations under a financial instrument or customer contract, leading to a financial loss.

iii) Liquidity risk

Liquidity risk is the risk that the Company may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses.

The Company's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Company's financial performance.

Risk management is carried out by the treasury department under policies approved by the board of directors. The treasury team identifies, evaluates and hedges financial risks in close co-operation with the Company's operating units. The board provides principles for overall risk management, as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, and credit risk, and investment of excess liquidity.

Market Risk

The sensitivity analysis excludes the impact of movements in market variables on the carrying value of post-employment benefit obligations provisions and on the non-financial assets and liabilities. The sensitivity of the relevant Statement of Profit and Loss item is the effect of the assumed changes in the respective market risks. The Company's activities expose it to a variety of financial risks, including the effects of changes in foreign currency exchange rates and interest rates.

(a) Foreign exchange risk and sensitivity

The Company transacts business in Indian Rupee and in foreign currency. The Company has foreign currency trade payables and receivables and is therefore, exposed to foreign exchange risk. Certain transactions of the Company act as a natural hedge as a portion of both assets and liabilities are denominated in similar foreign currencies.

The following table demonstrates the sensitivity in the USD to the Indian Rupee with all other variables held constant. The impact on the Company's profit before tax and other comprehensive income due to changes in the fair value of monetary assets and liabilities is given below:

Jindal Fittings Limited

Notes to Financial Statements

Particulars	(Amount in ₹)	
	Change in currency exchange rate	Effect on profit before tax
For the year ended March 31, 2017		
USD	+ 5%	25,16,477
	- 5%	-25,16,477
For the year ended March 31, 2016		
USD	+ 5%	12,85,750
	- 5%	-12,85,750

The assumed movement in exchange rate sensitivity analysis is based on the currently observable market environment.

Summary of exchange difference accounted in Statement of Profit and Loss:

Particulars	(Amount in ₹)	
	For the year ended March 31, 2017	For the year ended March 31, 2016
Currency Fluctuations		
Net foreign exchange (gain)/losses shown as Operating Expenses	23,217	(6,11,279)
Net foreign exchange (gain)/losses shown as Other Income	(72,11,569)	-
Derivatives		
Interest rate swaps (gain)/losses shown as finance cost	1,11,07,266	-

(b) Interest rate risk and sensitivity

The Company's exposure to the risk of changes in market interest rates relates primarily to long term debt. The management also maintains a portfolio mix of floating and fixed rate debt.

With all other variables held constant, the following table demonstrates the impact of borrowing cost on floating rate portion of loans and borrowings.

Interest rate sensitivity	(Amount in ₹)	
	Increase/Decrease in basis points	Effect on profit before tax
For the year ended March 31, 2017		
INR borrowings	+50	(52,20,911)
	-50	52,20,911
USD borrowings	+25	(2,91,445)
	-25	2,91,445
For the year ended March 31, 2016		
INR borrowings	+50	(29,54,304)
	-50	29,54,304

Jindal Fittings Limited Notes to Financial Statements

(c) Commodity price risk and sensitivity

The Company is exposed to the movement in price of key raw materials in domestic and international markets. The Company has in place policies to manage exposure to fluctuations in the prices of the key raw materials used in operations. The Company enter into contracts for procurement of material, most of the transactions are short term fixed price contract and a few transactions are long term fixed price contracts.

Credit risk

The Company is exposed to credit risk from its operating activities primarily trade receivables and from its financing activities, including deposits with banks, mutual funds and financial institutions and other financial instruments.

• Trade Receivables

The Company extends credit to customers in normal course of business. The Company considers factors such as credit track record in the market and past dealings for extension of credit to customers. The Company monitors the payment track record of the customers. Outstanding customer receivables are regularly monitored and any shipments to major customers are covered by letters of credit after considering the creditability of the customer. The Company evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and industries and operate in largely independent markets. The Company has also taken advances and security deposits from its customers & distributors, which mitigate the credit risk to an extent.

The ageing of trade receivable is as below:

Particulars	Neither due nor impaired (including unbilled)	(Amount in ₹)		
		upto 6 months	6 to 12 months	Above 12 months
Trade Receivable				
As at March 31, 2017				
Secured	45,883,121	19,999,218	-	759,948

Jindal Fittings Limited Notes to Financial Statements

• Financial instruments and cash deposits

The Company considers factors such as track record, size of the institution, market reputation and service standards to select the banks with which balances and deposits are maintained. Generally, the balances are maintained with the institutions with which the Company has also availed borrowings. The Company does not maintain significant cash and deposit balances other than those required for its day to day operations.

Liquidity risk

The Company's objective is to; at all times maintain optimum levels of liquidity to meet its cash and collateral requirements. The Company relies on a mix of borrowings, capital infusion and excess operating cash flows to meet its needs for funds. The current committed lines of credit are sufficient to meet its short to medium term expansion needs. The Company monitors rolling forecasts of its liquidity requirements to ensure it has sufficient cash to meet operational needs while maintaining sufficient headroom on its undrawn committed borrowing facilities at all times so that the Company does not breach borrowing limits or covenants (where applicable) on any of its borrowing facilities.

The table below provides undiscounted cash flows towards non-derivative financial liabilities and net-settled derivative financial liabilities into relevant maturity based on the remaining period at the balance sheet to the contractual maturity date.

Particulars	As of March 31, 2017				(Amount in ₹)	
	Carrying Amount	On Demand	Less than 6 months	6 to 12 months		> 1 years
Interest bearing borrowings (Including Current Maturities)	1,500,824,076	-	24,350,000	255,533,103	1,220,940,973	1,500,824,076

Other liabilities	13,382,837	10,041,571	131,738	3,209,528	-	13,382,837
Trade and other payables	110,640,206	87,682,310	22,957,896	-	-	110,640,206
Total	1,635,954,385	97,723,881	47,439,634	269,849,896	1,220,940,973	1,635,954,385
Particulars	As of March 31, 2016				(Amount in ₹)	
	Carrying Amount	On Demand	Less than 6 months	6 to 12 months		> 1 years
Interest bearing borrowings (Including Current Maturities)	901,572,401	-	70,036,057	151,148,537	680,387,807	901,572,401
Financial derivatives	-	-	-	-	-	-
Other liabilities	33,965,574	102,148	11,237,578	22,625,847	-	33,965,574
Trade and other payables	167,811,559	126,556,897	41,254,663	-	-	167,811,559
Total	1,103,349,534	126,659,045	122,528,298	173,774,384	680,387,807	1,103,349,534

The Company is required to maintain ratios (including total debt to EBITDA / net worth, EBITDA to gross interest, debt service coverage ratio and secured coverage ratio) as mentioned in the loan agreements at specified levels. In the event of failure to meet any of these ratios these loans become callable at the option of lenders, except where exemption is provided by lender.

Jindal Fittings Limited

Notes to Financial Statements

Unused line of credit

Particulars	(Amount in ₹)	
	As at March 31, 2017	As at March 31, 2016

Unsecured	-	-
Total	11,605,328	7,851,463

Interest rate & currency of borrowings

The below details do not necessarily represent foreign currency or interest rate exposure to the income statement.

Particulars	(Amount in ₹)		
	Total borrowings	Floating rate borrowings	Fixed rate borrowings
INR	1,50,08,24,076	1,11,99,22,599	38,09,01,477
Total as at March 31, 2017	1,50,08,24,076	1,11,99,22,599	38,09,01,477
INR	90,15,72,401	63,49,89,593	26,65,82,808
Total as at March 31, 2016	90,15,72,401	63,49,89,593	26,65,82,808

Competition and price risk

The Company faces competition from local and foreign competitors. Nevertheless, it believes that it has competitive advantage in terms of high quality products and by continuously upgrading its expertise and range of products to meet the needs of its customers.

Capital risk management

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The primary objective of the Company's capital management is to maximize the shareholder value. The Company's primary objective when managing capital is to ensure that it maintains an efficient capital structure and healthy capital ratios and safeguard the Company's ability to continue as a going concern in order to support its business and provide maximum returns for shareholders. The Company also proposes to maintain an optimal capital structure to reduce the cost of capital. No changes were made in the objectives, policies or processes during the year ended March 31, 2017 and March 31, 2016.

For the purpose of the Company's capital management, capital includes issued capital, compulsorily convertible debentures, share premium and all other equity reserves. Net debt includes, interest bearing loans and borrowings, trade and other payables less cash and short term deposits. The Company monitors capital using gearing ratio, which is net debt divided by total capital.

The company envisage to reduce the capital gearing ratio by infusion of funds. The gearing ratios at March 31, 2017 and March 31, 2016 were as follows:

Jindal Fittings Limited

Notes to Financial Statements

Particulars	(Amount in ₹)	
	As at March 31, 2017	As at March 31, 2016
Loans and Borrowings	1,50,08,24,076	90,15,72,401
Less: Cash and Cash Equivalents	1,45,98,145	5,34,360
Net Debt	1,48,62,25,931	90,10,38,041
Total Capital	23,40,01,034	47,24,76,970
Capital and Net Debt	1,72,02,26,965	1,37,35,15,011
Gearing Ratio	86%	66%

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches of the financial covenants of any interest bearing loans and borrowing for reported periods.

34. Fair value of financial assets and liabilities

Set out below is a comparison by class of the carrying amounts and fair value of the Company's financial instruments that are recognised in the financial statements.

Particulars	As at March 31, 2017		As at March 31, 2016	
	Carrying amount	Fair Value	Carrying amount	Fair Value
Financial assets designated at amortised cost				
Fixed deposits with banks	1,43,64,631	1,43,64,631	20,14,985	20,14,985
Cash and bank balances	1,45,98,145	1,45,98,145	5,34,360	5,34,360

Other financial assets	1,83,45,753	1,83,45,753	1,50,62,810	1,50,62,810
	14,37,47,218	14,37,47,218	9,38,65,357	9,38,65,357
Financial Liabilities designated at fair value through Profit or loss				
Derivatives not designated as hedging instruments	1,11,07,266	1,11,07,266	-	-
- Interest rate swaps				
Financial Liabilities designated at amortised cost				
Borrowings- fixed rate	38,09,01,477	38,09,01,477	26,65,82,808	26,65,82,808
Borrowings- floating rate	1,11,99,22,599	1,11,99,22,599	63,49,89,593	63,49,89,593
Trade and other payables	11,06,40,206	11,06,40,206	16,78,11,559	16,78,11,559
Other financial liabilities	1,33,82,837	1,33,82,837	3,39,65,573	3,39,65,573
	1,63,59,54,385	1,63,59,54,385	1,10,33,49,533	1,10,33,49,533

Fair valuation techniques

The Company maintains policies and procedures to value financial assets or financial liabilities using the best and most relevant data available. The fair values of the financial assets and liabilities are included at the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The following methods and assumptions were used to estimate the fair values:

- 1) Fair value of cash and deposits, trade receivables, trade payables, and other current financial assets and liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

Jindal Fittings Limited

Notes to Financial Statements

- 2) Long-term fixed-rate and variable-rate receivables / borrowings are evaluated by the Company based on parameters such as interest rates, specific country risk factors, credit risk and other risk characteristics. Fair value of variable interest rate borrowings is not materially different from carrying values. For fixed interest rate borrowing fair value is determined by using the discounted cash flow (DCF) method using discount rate that reflects the issuer's borrowings rate. Risk of non-performance for the company is considered to be insignificant in valuation.
- 3) IND AS 101 allow Company to fair value property, plant and machinery on transition to IND AS, the Company has fair valued property, plant and equipment, and the fair valuation is based on replacement cost approach.

Fair Value hierarchy

The following table provides the fair value measurement hierarchy of Company's asset and liabilities, grouped into Level 1 to Level 3 as described below:

- Quoted prices / published NVA (unadjusted) in active markets for identical assets or liabilities (level 1). It includes fair value of financial instruments traded in active markets and are based on quoted market prices at the balance sheet date and financial instruments like mutual funds for which net assets value (NAV) is published mutual fund operators at the balance sheet date.
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2). It includes fair value of the financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined by using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on the company specific estimates. If all significant inputs required to fair value an instrument are observable then instrument is included in level 2.
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3). If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

Fair value hierarchy

The following table provides the fair value measurement hierarchy of Company's asset and liabilities, grouped into Level 1 to Level 2 as described below:

Assets / Liabilities Measured at Fair value (Accounted)

Particulars	(Amount in ₹)		
	Level 1	Level 2	Level 3
Financial liabilities			
Derivatives -not designated as hedging instrumrnts			
- Interest rate Swaps		1,11,07,266	
Particulars	As at March 31, 2016		
	Level 1	Level 2	Level 3
Financial liabilities			
Derivatives -not designated as hedging instrumrnts			
- Interest rate Swaps			

Jindal Fittings Limited

Notes to Financial Statements

Assets / Liabilities for which fair value is disclosed (Only Disclosed)

Particulars	(Amount in ₹)		
	Level 1	Level 2	Level 3
As at March 31, 2017			
Financial liabilities			
Other borrowings- fixed rate		38,09,01,477	
Other financial liabilities		1,33,82,837	
As at March 31, 2016			
Financial liabilities			
Other borrowings- fixed rate		26,65,82,808	
Other financial liabilities		3,39,65,573	

During the year ended March 31, 2017 and March 31, 2016, there were no transfers between Level 1 and Level 2 fair value measurements, and no transfer into and out of Level 3 fair value measurements. There is no transaction / balance under Level 3.

Following table describes the valuation techniques used and key inputs to valuation for level 2 of the fair value hierarchy as of March 31, 2017 and March 31, 2016 respectively:

Particulars	Fair Value Hierarchy	Valuation technique	Inputs used	Quantitative information about significant unobservable inputs
Financial Liabilities				
Derivatives - not designated as hedging instruments				
- Interest rate swaps	Level 2	Market valuation techniques	Prevailing/forward interest rates in market, Interest rates to discount future cash flow	-

Assets / Liabilities for which fair value is disclosed

Particulars	Fair Value Hierarchy	Valuation technique	Inputs used
Financial Liabilities			
Other borrowings-Fixed rate	Level 2	Discounted Cash Flow	Prevailing interest rates in Market, Future payouts
Other financial liabilities	Level 2	Discounted Cash Flow	Prevailing interest rates to discount future cash flows

35. Segment information

Information about primary segment

The Company is engaged primarily into manufacturing of Ductile Iron Casted Fittings. The Company's primary segment as identified by management is Iron and steel products. The company operates into one primary segment.

Segments have been identified taking into account nature of product and differential risk and returns of the segment.

Jindal Fittings Limited

Notes to Financial Statements

Information about Geographical Segment – Secondary

The Company's operations are located in India. The following table provides an analysis of the Company's sales by geography in which the customer is located, irrespective of the origin of the goods.

Particulars	2016-17		2015-16		Total	(Amount in ₹)
	Within India	Outside India	Within India	Outside India		
Gross Revenue from Operations	31,72,91,489	15,29,33,265	14,55,76,259	12,14,43,068	26,70,19,327

Component of OCI

Deferred Tax (Gain)/Loss on defined benefit

(21,402) (25,561)

38. Retirement benefit obligations

1. Expense recognised for Defined Contribution plan

Particulars	(Amount in ₹)	
	For the year ended March 31, 2017	For the year ended March 31, 2016
Company's contribution to provident fund	4,129,981	4,027,578
Total	4,129,981	4,027,578

Below tables sets forth the changes in the projected benefit obligation and plan assets and amounts recognized in the Balance Sheet as of March 31, 2017 and March 31, 2016, being the respective measurement dates:

2. Movement in obligation

Particulars	(Amount in ₹)	
	Gratuity (unfunded)	leave encashment (unfunded)
Present value of obligation - April 1, 2015	1,596,994	3,103,438
Current service cost	1,460,851	2,409,411
Interest cost	128,110	248,346
Benefits paid	-	(371,163)
Remeasurements - actuarial loss/ (gain)	(73,859)	(461,032)
Present value of obligation - March 31, 2016	3,112,096	4,929,000
Present value of obligation - April 1, 2016	3,112,096	4,929,000
Current service cost	233,407	537,185
Interest cost	1,632,190	1,958,209
Benefits paid	-	(728,388)
Remeasurements - actuarial loss/ (gain)	(77,676)	(738,051)
Present value of obligation - March 31, 2017	4,900,017	5,957,955

Jindal Fittings Limited

Notes to Financial Statements

3. Movement in Plan Assets – Gratuity

Particulars	(Amount in ₹)	
	For the year ended March 31, 2017	For the year ended March 31, 2016
Fair value of plan assets at beginning of year	-	-
Expected return on plan assets	-	-
Employer contributions	2,475,939	-
Benefits paid	-	-
Actuarial gain / (loss)	-	-
Fair value of plan assets at end of year	2,475,939	-
Present value of obligation	4,900,017	3,112,096
Net funded status of plan	(2,424,078)	(3,112,096)
Actual return on plan assets	-	-

The components of the gratuity & leave encashment cost are as follows:

4. Recognised in profit and loss

Particulars	(Amount in ₹)	
	Gratuity	Leave Encashment
Current Service cost	233,407	537,185
Interest cost	1,632,190	1,958,209
Expected return on plan assets	-	-
Remeasurement - Actuarial loss/(gain)	-	-
For the year ended March 31, 2017	1,865,597	2,495,394
Actual return on plan assets	-	-
Current Service cost	1,460,851	2,409,411
Interest cost	128,110	248,346
Expected return on plan assets	-	-
Remeasurement - Actuarial loss/(gain)	-	-
For the year ended March 31, 2016	1,588,961	2,657,757
Actual return on plan assets	-	-

5. Recognised in other comprehensive income

Particulars	(Amount in ₹)	
	Gratuity	
Remeasurement - Actuarial loss/(gain)	(77,676)	
For the year ended March 31, 2017	(77,676)	
Remeasurement - Actuarial loss/(gain)	(73,859)	
For the year ended March 31, 2016	(73,859)	

Jindal Fittings Limited Notes to Financial Statements

6. The principal actuarial assumptions used for estimating the Company's defined benefit obligations are set out below:

Weighted average actuarial assumptions	As at	
	March 31, 2017	March 31, 2016
Discount Rate	7.50% per annum	8% per annum
Expected Rate of increase in Compensation levels	11.00% per annum	11.00% per annum
Expected Rate of Return on Plan Assets	N.A.	N.A.
Mortality rate	M 2006-08 Ultimate	M 2006-08 Ultimate
Expected Average remaining working lives of employees (years)	26.1 years	26.4 years

The assumption of future salary increase takes into account the inflation, seniority, promotion and other relevant factors such as supply and demand in employment market. Same assumptions were considered for comparative period i.e. 2015-16 as considered in previous GAAP on transition to IND AS.

7. Sensitivity analysis:

For the year ended March 31, 2017

Particulars	change in Assumption	(Amount in ₹)	
		Effect on Gratuity	obligation
Discount rate	+1	4,486,442	
	-1	5,886,731	
Salary Growth rate	+1	5,365,602	
	-1	4,495,079	
Withdrawal rate	+1	4,715,697	
	-1	5,105,802	

For the year ended March 31, 2016

Particulars	change in Assumption	(Amount in ₹)	
		Effect on Gratuity	obligation
Discount rate	+1	2,852,722	
	-1	3,417,618	
Salary Growth rate	+1	3,405,800	
	-1	2,857,026	
Withdrawal rate	+1	2,976,586	
	-1	3,261,650	

The above sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (projected unit credit method) has been applied as when calculating the defined benefit obligation recognised within the Balance Sheet.

OCI presentation of defined benefit plan

-Gratuity is in the nature of defined benefit plan, Re-measurement gains/(losses) on defined benefit plans is shown under OCI as Items that will not be reclassified to profit or loss and also the income tax effect on the same.

-Leave encashment cost is in the nature of short term employee benefits.

Presentation in Statement of Profit & Loss and Balance Sheet

Expense for service cost, net interest on net defined benefit liability (asset) is charged to Statement of Profit & Loss.

IND AS 19 do not require segregation of provision in current and non-current, however net defined liability (Assets) is shown as current and non-current provision in balance sheet as per IND AS 1. Actuarial liability for short term benefits (leave encashment cost) is shown as current and non-current provision in balance sheet.

When there is surplus in defined benefit plan, company is required to measure the net defined benefit asset at the lower of; the surplus in the defined benefit plan and the assets ceiling, determined using the discount rate specified, i.e. market yield at the end of the reporting period on government bonds, this is applicable for domestic companies, foreign company can use corporate bonds rate.

The Company assesses these assumptions with its projected long-term plans of growth and prevalent industry standards. The mortality rates used are as published by one of the leading life insurance companies in India.

\$ including PF, leave encashment paid and any other benefit.

@ Any shares allotted for other than cash i.e. ESOP or consideration for services in shares.

43. Earnings per share

The following is a reconciliation of the equity shares used in the computation of basic and diluted earnings per equity share:

Particulars	(Number of shares)	
	Year ended March 31, 2017	Year ended March 31, 2016
Issued equity shares	3,88,80,007	3,88,80,007
Equity Shares Compulsorily issuable on conversion of CCPS	3,27,869	3,27,869
Weighted average shares outstanding - Basic and Diluted - A	3,92,07,876	3,92,07,876

Jindal Fittings Limited Notes to Financial Statements

Net profit available to equity holders of the Company used in the basic and diluted earnings per share was determined as follows:

Particulars	(Amount in ₹)	
	Year ended March 31, 2017	Year ended March 31, 2016
Profit and Loss after tax - B	(23,85,32,209)	(16,85,59,158)
Basic Earnings per share (B/A) (₹)	(6.08)	(4.30)
Diluted Earnings per share (B/A) (₹)	(6.08)	(4.30)

The number of shares used in computing basic EPS is the weighted average number of shares outstanding during the year.

The diluted EPS is calculated on the same basis as basic EPS, after adjusting for the effects of potential dilutive equity.

4.4. Impairment review

Assets are tested for impairment whenever there are any internal or external indicators of impairment.

Impairment test is performed at the level of each Cash Generating Unit ('CGU') or groups of CGUs within the Company at which the goodwill or other assets are monitored for internal management purposes, within an operating segment.

The impairment assessment is based on higher of value in use and value from sale calculations. During the year, the testing did not result in any impairment in the carrying amount of goodwill and other assets.

The measurement of the cash generating units' value in use is determined based on financial plans that have been used by management for internal purposes. The planning horizon reflects the assumptions for short to- mid-term market conditions.

Key assumptions used in value-in-use calculations:

- Operating margins (Earnings before interest and taxes)
- Discount rate
- Growth rates
- Capital expenditures

Operating margins: Operating margins have been estimated based on past experience after considering incremental revenue arising out of adoption of valued added and data services from the existing and new customers, though these benefits are partially offset by decline in tariffs in a hyper competitive scenario. Margins will be positively impacted from the efficiencies and initiatives driven by the Company; at the same time, factors like higher churn, increased cost of operations may impact the margins negatively.

Discount rate: Discount rate reflects the current market assessment of the risks specific to a CGU or group of CGUs. The discount rate is estimated based on the weighted average cost of capital for respective CGU or group of CGUs.

Growth rates: The growth rates used are in line with the long term average growth rates of the respective industry and country in which the Company operates and are consistent with the forecasts included in the industry reports.

Capital expenditures: The cash flow forecasts of capital expenditure are based on past experience coupled with additional capital expenditure required

Jindal Fittings Limited Notes to Financial Statements
