### Independent auditor's report

To,

The Shareholder

**M/s. Jindal Saw Holdings FZE**

Fujairah Free Zone

Fujairah - United Arab Emirates

### **Report on the audit of separate financial statements**

#### **Opinion**

We have audited the accompanying separate financial statements of **M/s. Jindal Saw Holdings FZE**, Fujairah Free Zone, Fujairah - United Arab Emirates (the "Entity") which comprise the statement of financial position as at March 31, 2018 and the statement of profit or loss and other comprehensive income, statement of changes in shareholder's equity, statement of cash flows for the year then ended, and notes to the separate financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Entity as at March 31, 2018 and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs).

#### **Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of separate financial statements* section of our report. We are independent of the Entity in accordance with the requirements of Code of Ethics for Professional Accountants, issued by International Ethics Standards Board for Accountants (IESBA) together with ethical requirements that are relevant to our audit of separate financial statements and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Responsibilities of management**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with International Financial Reporting Standards (IFRSs), and for such internal control as management determines is necessary to enable the preparation of separate financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Entity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Entity or to cease operations, or has no realistic alternative but to do so.

### **Auditor's responsibilities for the audit of separate financial statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of separate financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Entity's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in separate financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Entity to cease to continue as a going concern.

We communicate with the management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

### **Report on other legal and regulatory requirements**

As required by the Rules and Regulations framed pursuant to Emiri Decree No. 6 of 1987 issued in Fujairah in respect of the creation of Free Zone, amended by Emiri Decree No. 1 for the year 1992, we further confirm that,

- 1 We have obtained all the information and explanations which we consider necessary for our audit.
- 2 Separate financial statements have been prepared and comply, in all material respects, with the applicable provisions of the above mentioned law and the Articles of Incorporation of the Entity.
- 3 Proper books of accounts have been maintained by the Entity.

**Report on other legal and regulatory requirements (continued)**

- 4 Investment in shares and stocks are included in note 4 to separate financial statements and include purchases and investments made by the Entity during the year ended March 31, 2018.
- 5 Note 5 to separate financial statements reflects the disclosures relating to material related party transactions and the terms under which they were conducted.
- 6 Based on the information that has been made available to us, nothing has come to our attention which causes us to believe that the Entity has contravened, during the financial year ended, any of the applicable provisions of the above mentioned law or the Articles of Incorporation of the Entity, which would materially affect its activities or its financial position as at March 31, 2018.

## Jindal Saw Holdings FZE

Fujairah Free Zone

Fujairah - United Arab Emirates

Notes to the separate financial statements for the year ended March 31, 2018

---

### 1 Legal status and business activities

- 1.1 M/s. **Jindal Saw Holdings FZE**, Fujairah Free Zone, Fujairah - United Arab Emirates (the "Entity") was registered on October 19, 2009 as a Free Zone Establishment and operates in the United Arab Emirates under Investments & General Trading licenses issued by the Fujairah Free Zone Authority of the Government of Fujairah, Fujairah - United Arab Emirates.
- 1.2 The Entity is licensed by Fujairah Free Zone Authority to invest in business such as company, establishment, joint venture, organization or engaging with other entities carrying on similar business inside or outside United Arab Emirates. During the year, the Entity added an activity "general trading".
- 1.3 The registered address of the Entity is P.O. Box: 50556, Fujairah Free Zone, Fujairah - United Arab Emirates.
- 1.4 The management and control are vested with the Manager, Mr. Anil Kumar Kejriwal (Indian national).
- 1.5 These separate financial statements incorporate the operating results of the license nos. 2640 and 2640A issued by the Fujairah Free Zone Authority, Government of Fujairah, Fujairah - United Arab Emirates. The Entity also prepares consolidated financial statements in accordance with IFRS 10.

### 2 New and amended standards

#### 2.1 New and revised IFRSs applied with no material effect on the separate financial statements

The Entity has applied the following standards and amendments for the first time for their annual reporting period commencing January 01, 2017. The adoption of these amendments did not have any impact on the current period or any prior period and is not likely to affect future periods.

Amendments in Disclosure Initiative (Amendments to IAS 7 Statement of Cash Flows) that entities shall provide disclosures that enable users of separate financial statements to evaluate changes in liabilities arising from financing activities. The liabilities arising from financing activities are disclosed (to the extent necessary): (i) changes from financing cash flows; (ii) changes arising from obtaining or losing control of subsidiaries or other businesses; (iii) the effect of changes in foreign exchange rates; (iv) changes in fair values; and (v) other changes.

Annual Improvements to IFRSs 2014-2016 cycles: The amendments clarify that the disclosure requirements of IFRS 12 apply to interests in entities that are classified as held for sale, except for summarized financial information.

The following amended standards and interpretations are not expected to have significant impact on the Entity's separate financial statements;

#### New and revised standards and amendments

#### Effective for annual periods beginning on or after

Annual Improvements to IFRS Standards 2014–2016 Cycle on 8 December 2016, amending the standards: IFRS 1- First-time Adoption of International Financial Reporting Standards and IAS 28 Investments in Associates and Joint Ventures. January 1, 2018

IFRIC 22 Foreign Currency Transactions and Advance Consideration: The interpretation clarifies the date of the transaction for the exchange rate to be used on initial recognition of a related asset, expense or income where an entity pays or receives consideration in advance for foreign currency denominated contracts. January 1, 2018

2 New and amended standards (continued)

2.1 New and revised IFRSs applied with no material effect on separate financial statements (continued)

New and revised standards and amendments

Effective for annual periods  
 beginning on or after

Classification and Measurement of Share-based Payment Transactions (Amendments to IFRS 2-Share-based Payment) contains the clarifications and amendments: The amendments pertain to accounting for cash-settled share-based payment transactions that include a performance condition; classification of share-based payment transactions with net settlement features; accounting for modifications of share-based payment transactions from cash-settled to equity-settled. The amendments are to be applied prospectively. However, retrospective application is allowed if this is possible without the use of hindsight.

January 1, 2018

IFRS 9 "Financial Instruments": Issued on 24 July 2014 is the IASB's replacement of IAS 39 Financial Instruments: Recognition and Measurement. The Standard includes requirements for recognition and measurement, impairment, derecognition and general hedge accounting. The IASB completed its project to replace IAS 39 in phases, adding to the standard as it completed each phase. The version of IFRS 9 issued in 2014 supersedes all previous versions and is mandatorily effective for periods beginning on or after 1 January 2018 with early adoption permitted (subject to local endorsement requirements).

January 1, 2018

Applying IFRS 9 'Financial Instruments' with IFRS 4 'Insurance Contracts' (Amendments to IFRS 4) to address concerns about the different effective dates of IFRS 9 and the new insurance contracts standard. An entity choosing to apply the overlay approach retrospectively to qualifying financial assets does so when it first applies IFRS 9.

January 1, 2018

IFRS 9 "Financial Instruments": Prepayment Features with Negative Compensation (Amendments to IFRS 9) to address the concerns about how IFRS 9 classifies particular prepayable financial assets. The amendments are to be applied retrospectively for fiscal years beginning on or after January 1, 2019; early application is permitted.

January 1, 2019

Amended by Transfers of Investment Property (Amendments to IAS 40-Investment Property): An entity shall transfer a property to, or from, investment property when, and only when, there is evidence of a change in use. A change of use occurs if property meets, or ceases to meet, the definition of investment property. A change in management's intentions for the use of a property by itself does not constitute evidence of a change in use.

July 1, 2018

IFRS 15 "Revenue from Contracts with Customers": IFRS 15 was issued which established a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. IFRS 15 will supersede the current revenue recognition guidance including IAS 18 Revenue, IAS 11 Construction Contracts, and the related interpretations when it becomes effective.

January 1, 2018

**2 New and amended standards (continued)**

**2.1 New and revised IFRSs applied with no material effect on separate financial statements (continued)**

**New and revised standards and amendments**

**Effective for annual periods  
beginning on or after**

IFRS 16 "Leases": The new standard brings most leases on-balance sheet for lessees under a single model, eliminating the distinction between operating and finance leases. Lessor accounting however remains largely unchanged and the distinction between operating and finance leases is retained. IFRS 16 supersedes IAS 17 'Leases' and related interpretations. Earlier adoption permitted if IFRS 15 'Revenue from Contracts with Customers' has also been applied.

January 1, 2019

IFRS 17 -Insurance Contracts was issued in May 2017 as a replacement of IFRS 4- Insurance Contracts. It requires a current measurement model where estimates are re-measured each reporting period.

January 1, 2021

Management anticipates that these new standards, interpretations and amendments will be adopted in the financial statements as and when they are applicable and adoption of these new standards, interpretations and amendments, may have no material impact on separate financial statements in the period of initial application.

**3 Significant accounting policies**

**3.1 Statement of compliance**

Separate financial statements have been prepared in accordance with International Financial Reporting Standards. These separate financial statements are presented in United Arab Emirates Dirham (AED) which is the Entity's functional and presentational currency.

**3.2 Basis of preparation**

These separate financial statements represent separate financial statements of the Entity in accordance with IAS 27 "Separate Financial Statements". The consolidated financial statements are being issued separately.

The separate financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values, as explained in the accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for assets or goods or services.

The principal accounting policies applied in these separate financial statements are set out on below.

**3.3 Current/non-current classification**

The Entity presents assets and liabilities in the statement of financial position based on current/non-current classification. An asset is current when it is:

Expected to be realised or intended to sold or consumed in normal operating cycle or held primarily for the purpose of trading or expected to be realised within twelve months after the reporting period, or cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when it is expected to be settled in normal operating cycle or it is held primarily for the purpose of trading or it is due to be settled within twelve months after the reporting period, or there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Entity classifies all other liabilities as non-current.

## **Jindal Saw Holdings FZE**

Fujairah Free Zone

Fujairah - United Arab Emirates

Notes to the separate financial statements for the year ended March 31, 2018

---

### **3 Significant accounting policies (continued)**

#### **3.4 Foreign currency**

The transactions in currencies other than the Entity's functional currency are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognised in profit or loss in the period in which they arise.

Changes in the fair value of monetary securities denominated in foreign currency classified as available for sale are analysed between translation differences resulting from changes in the amortised cost of the security and other changes in the carrying amount of the security. Translation differences related to changes in amortised cost are recognised in profit or loss, and other changes in carrying amount are recognised in other comprehensive income.

Translation differences on non-monetary financial assets and liabilities such as equities held at fair value through profit or loss are recognised in profit or loss as part of the fair value gain or loss. Translation differences on non-monetary financial assets, such as equities classified as available for sale, are included in other comprehensive income.

#### **3.5 Investment in subsidiaries**

The investment in subsidiaries are accounted for using cost method as suggested by IAS 39 "Financial Instruments: Recognition and Measurement with an exemption of IFRS 10 "Consolidated Financial Statements" where the Entity has not opted to consolidate its subsidiary.

#### **3.6 Financial instruments**

Financial assets and financial liabilities are recognised when the Entity becomes a party to the contractual provisions of the instrument.

#### **3.7 Financial assets**

Financial assets are classified into the following specified categories: financial assets 'at fair value through profit or loss' (FVTPL), 'held-to-maturity' investments, 'available-for-sale' (AFS) financial assets and 'loans and receivables'.

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition.

##### Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for maturities greater than 12 months after the end of the reporting period. These are classified as non-current assets. The Entity's loans and receivables comprise "advances deposits and other receivables", "cash and cash equivalents", "shareholders' loan" and "loan from/to related parties" in the statement of financial position. Loans and receivables are measured at amortised cost using the effective interest method, less any impairment.

## **Jindal Saw Holdings FZE**

Fujairah Free Zone

Fujairah - United Arab Emirates

Notes to the separate financial statements for the year ended March 31, 2018

---

### **3 Significant accounting policies (continued)**

#### **3.7 Financial assets (continued)**

##### Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and demand deposits and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value.

##### Accounts and other receivable

Accounts receivable are amounts due from customers for merchandise sold or services performed in the ordinary course of business. If collection is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets. Accounts and other receivables are initially recognised at fair value and subsequently measured at amortised cost reduced by appropriate allowance for estimated doubtful debts.

##### Due from/loan to related parties

Amounts due from/loan to related parties are measured at amortised cost.

##### Impairment of financial assets

###### *Assets carried at amortised cost*

The Entity assesses at the end of each reporting period, whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is impaired and impairment losses are recognized only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

Evidence of impairment may include indications that the debtors or a group of debtors is experiencing significant financial difficulty and where observable data indicate that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

For loans and receivables category, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced and the amount of the loss is recognised in the statement of profit or loss.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the reversal of the previously recognised impairment loss is recognised in the statement of profit or loss.

##### Derecognition of financial assets

The Entity derecognises a financial asset only when the contractual rights to the cash flows from the asset expire; or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Entity neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Entity recognises its retained interest in the asset and an associated liability for amounts, it may have to pay. If the Entity retains substantially all the risks and rewards of ownership of a transferred financial asset, the Entity continues to recognise the financial asset.

**3 Significant accounting policies (continued)**

**3.8 Financial liabilities**

Financial liabilities are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability. All financial liabilities are recognised initially at fair value and, in the case of loans, borrowings and payables, net of directly attributable transaction costs. The Entity's financial liabilities include accounts and other payables, loans and borrowings, due to and loan from a related party.

Accounts and other payable

Accounts payable are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non-current liabilities. Accounts and other payables are recognised initially at fair value and subsequently are measured at amortised cost using effective interest method.

Due to/loan from a related party

Amounts due to/loan from a related party is stated at amortised cost.

Loans and other borrowings

Loans and other borrowings are recorded at the proceeds received, net of direct issue costs. Finance charges are accounted on accrual basis and are added to the carrying value of the instruments to the extent that they are not settled in the period in which they arise.

Derecognition of financial liabilities

The Entity derecognises financial liabilities when, and only when, the Entity's obligations are discharged, cancelled or they expire. When an existing financial liability is replaced by another, from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

**3.9 Offsetting financial instruments**

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

**3.10 Provisions**

Provisions are recognised when the Entity has a present obligation (legal or constructive) as a result of a past event, it is probable that the Entity will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Fujairah Free Zone  
Fujairah - United Arab Emirates

Notes to the separate financial statements for the year ended March 31, 2018

---

### **3 Significant accounting policies (continued)**

#### **3.11 Revenue recognition**

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, rebates and other similar allowances.

##### *Realized gain or loss on trading of future contracts*

Realised gain or loss on trading of future contracts is differential of the value on which the contract was entered and the value at which the contract was closed by the Entity.

##### *Dividend and interest income*

Dividend income from investments is recognised when the shareholder's right to receive payment has been established.

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Entity and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

#### **3.12 Critical accounting judgements and key sources of estimation uncertainty**

In the application of the Entity's accounting policies, which are described in policy notes, the management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The significant judgements and estimates made by management, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are described below.

##### **Critical judgements in applying accounting policies**

In the process of applying the Entity's accounting policies, which are described above, and due to the nature of operations, management makes the following judgement that has the most significant effect on the amounts recognised in separate financial statements.

##### **Key sources of estimation uncertainty**

The key assumptions concerning the future, and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are discussed below.

**3 Significant accounting policies (continued)**

**3.12 Critical accounting judgements and key sources of estimation uncertainty (continued)**

**Key sources of estimation uncertainty (continued)**

*Valuation of unquoted investments*

Valuation of unquoted equity investments is normally based on one of the following:

- Current fair value of another instrument that is substantially the same;
- The expected cash flows discounted at current rates applicable for items with similar terms and risk characteristics; or
- Other valuation models.

The determination of the cash flows and discount factors for unquoted equity investments requires significant estimations. The Entity calibrates the valuation techniques periodically and tests them for validity using either prices from observable current market transactions in the same instrument or from other available observable market data.

Impairment loss*			<u>(25,251,176)</u>	<u>(25,251,176)</u>
			<u>-</u>	<u>-</u>
c) M/s. Jindal International FZE, Fujairah Free Zone, Fujairah - U.A.E.				
- Investment in share capital	100%	100%	150,000	150,000
<b>Total (a + b + c)</b>			<u>80,957,877</u>	<u>80,957,877</u>

a) Represents 75% equity interest {750 shares of AED 66,000 each (2017: 750 shares of AED 66,000 each)} and an additional long term investment of capital employed in M/s. Jindal Saw Middle East FZC, Fujairah Free Zone, Fujairah - U.A.E. The principal activities of the subsidiary consists of general trading.

b) Represents 49% equity interest {4,709,755 shares (2017: 4,709,755 shares)} in M/s. Greenray Holdings Limited, Leicestershire - United Kingdom. The remaining 51% equity interest (4,901,969 shares) is held by M/s Jindal Saw Limited - India (the ultimate parent) and the defacto control and power to govern the operating and financial policies of the investee remains with the Entity. The principal activity of the investee is distribution of ductile iron pipes, fittings, waterworks valves, pipe joints and pipe repair products.

\* In the previous year, the management of M/s. Greenray Holdings Limited, Leicestershire - United Kingdom (GHL) has decided to dissolve M/s. Derwent Sand SARL - Algeria, a fully owned subsidiary. As at the reporting date, the total liabilities of M/s. Derwent Sand SARL - Algeria exceeded its total assets by AED 11,010,000. The management has performed an impairment review of the said investment whereby, the total investment in M/s. Greenray Holdings Limited of AED 25,251,176 (2017: AED 25,251,176) has been deemed to be irrecoverable and therefore has been fully impaired in the books of accounts. Further in the previous year, AED 220,200 had been recorded as a provision against expected winding up cost for the dissolution and settlement of outstanding liabilities (note 15).

c) Represents 100% equity interest {1,000 shares of AED 150 each (2017: 1,000 shares of AED 150 each)} in M/s. Jindal International FZE, Fujairah Free Zone, Fujairah - U.A.E.. The principal activities of the subsidiary consists of general trading.

The investment in subsidiaries has been separately accounted at cost in these separate financial statements in accordance with IAS 27 ("Separate financial statements"). However, the Entity also prepares consolidated financial statements in accordance with IFRS 10 ("Consolidated financial statements").

Financial instruments comprise of financial assets and financial liabilities.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between knowledgeable and willing parties.

Financial assets consist of due from related parties, other receivables, long term loan to a related party and cash and bank balances. Financial liabilities consist of short term loan from a related party, provision and other payable, long term loan from a related party, due to a related party and bank borrowings.

As at the reporting date, financial assets and financial liabilities approximate their carrying values.

**Jindal Saw Holdings FZE**  
 Fujairah Free Zone  
 Fujairah - United Arab Emirates

Notes to the separate financial statements for the year ended March 31, 2018  
 (In Arab Emirates Dirham)

**18 Financial instruments (continued)**

c) *Valuation premise for financial instruments that are not measured at fair value on recurring basis.*

The following methods and assumptions were used to estimate the fair values:

Receivables are evaluated by the Entity based on parameters such as interest rates, individual creditworthiness of the customer. Based on this evaluation, allowances are taken into account for the expected losses of these receivables. As at reporting date, the carrying amounts of such receivables, net of allowances, were not materially different from their calculated fair values

The fair value of other financial liabilities as well as other non-current financial liabilities is estimated by discounting future cash flows using rates currently available for debt on similar terms, credit risk and remaining maturities.

**19 Financial risk management objectives**

The Entity management set out the Entity's overall business strategies and its risk management philosophy. The Entity's overall financial risk management program seeks to minimize potential adverse effects on the financial performance of the Entity. The Entity policies include financial risk management policies covering specific areas, such as market risk (including foreign exchange risk, interest rate risk), liquidity risk and credit risk. Periodic reviews are undertaken to ensure that the Entity's policy guidelines are complied with.

There has been no change to the Entity's exposure to these financial risks or the manner in which it manages and measures the risk.

a) *Foreign currency risk management*

The Entity undertakes certain transactions denominated in foreign currencies. Hence, exposures to exchange rate fluctuations arise.

The carrying amounts of the Entity's monetary assets and liabilities denominated in foreign currencies other than in Arab Emirates Dirham or currencies to which the Dirham is fixed are as follows:

	Amounts in Foreign currency		Amounts in AED	
	2018	2017	2018	2017
Euro	5,082,023	5,020,669	22,970,744	19,731,229

*Foreign currency sensitivity analysis*

The following table details the Entity's sensitivity to a 10% increase and decrease in the AED against the relevant foreign currencies. 10% is the sensitivity rate used for reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonable possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a 10% change in foreign currency rates. A positive or negative number below indicates an increase or decrease in profit or loss where the AED weakens 10% against the relevant currency. For a 10% strengthening of the AED against the relevant currency, there would be an equal and opposite impact on the profit or loss, and the balances below would be negative.

	Profit or loss	
	2018	2017
Euro	2,297,074	1,973,123

**Jindal Saw Holdings FZE**  
 Fujairah Free Zone  
 Fujairah - United Arab Emirates

Notes to the separate financial statements for the year ended March 31, 2018  
 (In Arab Emirates Dirham)

**19 Financial risk management objectives (continued)**

b) *Interest rate risk management*

The Entity's exposure to the risk of changes in market interest rates relates primarily to the Entity's borrowings with floating interest rates. The Entity's policy is to manage its interest cost using a mix of fixed and variable rate debts. Interest on financial instruments having floating rates is re-priced at intervals of less than one year and interest on financial instruments having fixed rate is fixed until the maturity of the instrument.

Interest rate sensitivity analysis

The sensitivity analysis below have been determined based on the exposure to interest rates for non-derivative instruments at the reporting date. For floating rate liabilities, the analysis is prepared assuming the amount of liability outstanding at the reporting date was outstanding for the whole year. A 50 basis point increase or decrease is used for reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonable possible change in interest rates.

If interest rates had been 50 basis points higher/(lower) and all other variables were held constant, the Entity's profit for the year then ended would (decrease)/increase by Nil (2017: (decrease)/increase by AED 196,500).

c) *Liquidity risk management*

Ultimate responsibility for liquidity risk management rest with the management which has built an appropriate liquidity risk management framework for the management of the Entity's short, medium and long-term funding and liquidity management requirements. The Entity manages liquidity risk by maintaining adequate reserves, continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

The Entity has access to interest free loans from its shareholder at its disposal to further reduce liquidity risk.

Liquidity and interest risk tables:

The table below summarises the maturity profile of the Entity's financial assets and financial liabilities. The contractual maturities of the financial assets and financial liabilities have been determined on the basis of the remaining period at the financial position date to the contractual maturity date. The maturity profile of the assets and liabilities at the statement of financial position date based on contractual repayment arrangements were as follows:

Particulars	Interest bearing			Non-Interest bearing			Total

Notes to the separate financial statements for the year ended March 31, 2018  
 (In Arab Emirates Dirham)

**19 Financial risk management objectives (continued)**

d) *Credit risk management*

Credit risk refers to the risk that the counterparty will default on its contractual obligations resulting in financial loss to the Entity. The Entity has adopted a policy of only dealing with creditworthy counterparties. The Entity's exposure are continuously monitored and their credit exposure is reviewed by the management regularly.

Details of credit risks on other receivables are disclosed in note 6 to the separate financial statements.

The credit risk on liquid funds is limited because the counterparties are banks with high credit-ratings assigned by international credit-rating agencies.

The carrying amounts of the financial assets recorded in separate financial statements, which is net of impairment losses, represents the Entity's maximum exposure to credit risks.

**20 Capital risk management**

The Entity manages its capital to ensure that it will be able to continue as a going concern while maximizing the return to stakeholders through the optimization of the equity balance. The Entity's overall strategy remains unchanged from prior year.

The Entity monitors capital on the basis of the gearing ratio. The ratio is calculated as net debt divided by equity. Net debt is calculated as trade and other payables less cash and cash equivalents. Total capital is equivalent to shareholder equity as shown in the statement of financial position.

*Gearing ratio*

The gearing ratio at the year end was as follows:

	<b>As at March 31,</b>	
	<b>2018</b>	2017
Debt (i)	-	39,300,000
Cash and cash equivalents	<b>(1,818,888)</b>	(1,051,908)
Net debt	<b>(1,818,888)</b>	38,248,092
Equity (ii)	<b>46,135,862</b>	52,879,046
Net debt to equity ratio	<b>0:1</b>	5:7

i) Debt is defined as bank borrowings, and term loan as detailed in note 11.

ii) Equity include all capital and accumulated losses of the Entity including shareholders' current accounts.

**21 Contingent liabilities**

Except for the ongoing business obligations which are under normal course of business, there has been no other known contingent liability on Entity's separate financial statements as of reporting date.

**22 Commitments**

Except for the ongoing business obligations which are under normal course of business, there has been no other known commitment on Entity's separate financial statements as of reporting date.

**23 Comparative amounts**

Certain amounts for the prior year were reclassified to conform to current year's presentation. However, such reclassifications do not have any impact on the Entity's previously reported financial result or shareholder's equity.
